The Wisconsin Fast Forward program encourages increased collaboration between Wisconsin's workforce, employers, local or regional economic development organizations, workforce development boards, post-secondary institutions, and private training providers to develop and execute business-led training programs. These training programs are designed to provide sustainable, short- and medium-term training and placement of workers in positions that offer trainees long-term professional growth and economic opportunity. To maintain a strong environment for private-sector job creation, Wisconsin must train workers to fill the employment demands of growing and expanding employers. It is anticipated that the relationships developed through Wisconsin Fast Forward funded training programs will continue to flourish after the Wisconsin Fast Forward grant has ended.

Expanded Wisconsin Fast Forward Program: The standard Wisconsin Fast Forward (WFF) program is a state funded grant program to provide employer-focused worker training grants. The Office of Skills Development (OSD) at the Department of Workforce Development (DWD) administers the grant program. Additionally, OSD works to encourage the development of innovative solutions at the local and regional level that bring together employers, educators, workforce development entities and economic development organizations to meet area workforce demands. The 2018-19 biennial budget allows for expanded Wisconsin Fast Forward initiatives to meet identified needs.

This grant is for Schools Boards, or a governing body of a public, private or charter school that can demonstrate a critical need to train and license teachers to meet the standards of the Wisconsin Department of Public Instruction (DPI) under s. 118.196.
