Expanded Wisconsin Fast Forward Program

Technical Education Equipment Grant Program Announcement

Award Amount: \$5,000 to \$100,000

**Applications must be completed and submitted through [Submittable](#) by
3 p.m. CST on Monday, Nov. 9, 2026.**

The Wisconsin Fast Forward (WFF) program is a state-funded grant program that provides employer-led worker training grants. The Office of Skills Development (OSD) at the Department of Workforce Development (DWD or Department) administers the grant program. OSD works to encourage the development of innovative solutions at the local and regional level that bring together employers, educators, workforce development entities, and economic development organizations to meet area workforce needs and increase the economic capacity of its residents.

DWD is now accepting applications for WFF Technical Education Equipment grants. This opportunity is open to Wisconsin school districts or consortia consisting of multiple school districts that can demonstrate that the career and technical education program for which they will be constructing, renovating, or improving school district facilities for the purpose of training students in construction-related and advanced manufacturing fields or acquiring equipment used in advanced manufacturing or construction fields will do the following:

- Meet the needs of employers in their region.
- Leverage partnerships and matching funds.
- Optimize regional training capacity.
- Increase the supply of skilled workers in advanced manufacturing or construction fields.
- Build on proven programs.
- Include mechanisms for sustainability.

Legislative Authority: Legislative authority for this grant is found at [Wis. Stat. § 106.275](#).

Program Overview

Definitions: The following definitions are used throughout the Grant Program Announcement (GPA):

- **"Applicant"** means a school district or a consortium consisting of multiple school districts in Wisconsin that applies to DWD for a grant.
- **"Consortium"** means two or more school districts joining together to create a project with a lead school district serving as the applicant.
- **"Contract"** means a legal document that sets forth the grant terms and conditions.
- **"Grantee"** means an applicant awarded a grant by the Department.
- **"Grant"** means an award from the Department to the Grantee whereby the Department provides funds from the appropriation under [Wis. Stat. § 20.445\(1\)\(cg\)](#) for the purposes specified in [Wis. Stat. § 106.275\(1\)\(b\)](#).
- **"School District"** means a territorial unit for school administration. School districts are classified as common, union high, unified, and first-class city school districts. A joint school district is one territory of which is not wholly in one municipality.
- **"Sparsity Aid"** is defined under [Wis. Stat. § 115.436](#). See also, <https://dpi.wi.gov/media/27409>
- **"State"** means State of Wisconsin.

Grant Program Announcement Summary: The purpose of this grant opportunity is to train high school students in advanced manufacturing or construction-related fields to help address Wisconsin's skilled worker shortage and award grant moneys so that not less than one-third of grant moneys awarded in a fiscal biennium are provided to applicants that are either school districts that are eligible for sparsity aid or consortia that include at least one school district that is so eligible. This grant is also intended to accelerate the transition of students into the workforce by preparing them for stable careers and to provide students and their families with the means to reduce higher education costs by providing dual enrollment credits, industry-endorsed certificates, and technical endorsements on high school diplomas.

For this grant opportunity, eligible advanced manufacturing or construction-related fields include, but are not limited to:

Smart Manufacturing	Additive Manufacturing	Construction
Machining and Controls	Robotics	Development Logistics
Digital Manufacturing and Design	Photonics	Design/Pre-construction
Electronics	Materials and Composites	Installation and Repair Production
Chemical and Thermal Processes	Healthcare and Medicine	Warehousing
Biotechnology	Bioenergy	Distribution Center Operations
Bioproducts	Biomanufacturing	Maintenance/Operations

Matching funds, as required under [Wis. Stat. §106.275\(1\)\(c\)](#), must be incurred and provided during the grant period in an amount equal to or greater than any grant moneys received.

Match must be documented within the submitted application and may be in the form of money or the monetary value of software, tools, equipment, or other in-kind contributions that are provided.

Grantees are required to:

- (1) Track outcomes related to the vocational and technical education programs for grant-supported tool or equipment purchases, software, related materials, and instructional training for instructors and pupils in the operation of that tool or equipment, or for the construction, renovation, or improvement of a school district facility for the purpose of training students in construction-related and advanced manufacturing fields.
- (2) File an outcomes report with DWD by September 1st of each of the **three** fiscal years after receiving the grant. In each report, the Grantee shall do the following:
 - a. Describe how the grant funds were expended.
 - b. Describe the outcomes achieved as a result of receiving the grant.
 - c. Share the best practices employed by the Grantee regarding training of pupils in the use of the tools and equipment acquired with the grant funds.
 - d. Include a plan for sustainability of the training described in par. (c).
 - e. Provide such other information as the Department may require in the GPA.

Recipients of previous awards from this program may apply but must demonstrate how the proposed project differs from the project funded by a prior award.

Grant Program Highlights

Total Grant Program	Approximately \$1.0 million is available for funding in this fiscal year.
Individual Awards	Minimum \$5,000 up to \$100,000
Eligible Applicants	Wisconsin school districts

Use of Grant funds	Reimbursement of costs for the construction, renovation, or improvement of school district facilities for the purpose of training students or for the acquisition of tools and equipment that is used in construction-related and advanced manufacturing fields, including any software, related materials, and instructional training for instructors and pupils in the operation of that tool or equipment.
Goals	• Train high school students in advanced manufacturing or construction-related fields to help address Wisconsin's skilled worker shortage. • Award grants to applicants so that not less than one-third of grant moneys awarded in a fiscal biennium are provided to applicants that are either school districts that are eligible for sparsity aid or consortia that include at least one school district that is so eligible. • Accelerate the transition of students into Wisconsin's workforce. • Provide students and their families with a way to reduce higher education costs by providing dual enrollment credits, industry-endorsed certificates, and technical endorsements on high school diplomas.
Terms of Award	Grants will be awarded as cost reimbursement contracts with an anticipated contract start date of January 15, 2027. All grant expenditures must be incurred by June 30, 2029.
Match Funding	Applicants are required to incur and provide matching funds in the grant period in the form of money or the monetary value of software, tools, equipment, or other in-kind contributions that are equal to or greater than any grant moneys received.

Important Dates: Applications must be submitted through [Submittable](#) by 3 p.m. CST on Monday, Nov. 9, 2026.

GPA Released	Oct. 7, 2026
Application Submission	Nov. 9, 2026 by 3 p.m. CST Expanded Wisconsin Fast Forward applications are submitted through Submittable. Submittable serves as an online platform designed to gather funding applications, foster communication with applicants, assess content and oversee the decision-making process. Please see the Application Instructions on how to create a Submittable account on the Wisconsin Fast Forward website at: http://www.wisconsinfastforward.com/wff_standard.htm

Projected Grant Awards Announcement	January 4, 2027
Anticipated Contract Start Date	January 15, 2027
Funding Disbursement	Reimbursement basis (upon verification and approval of submitted documentation of purchases, purchase orders, invoices, related project expenses, and proof of payment for all expenses).
Contract End Date	June 30, 2029

GPA and Application Process Questions & Answers:

Any questions or clarifications related to this Grant Program Announcement may be submitted in writing via email to WisconsinFastForward@dwd.wisconsin.gov. DWD will respond to your inquiry promptly.

Responses will also be posted at http://www.wisconsinfastforward.com/wff_standard.htm.

If it becomes necessary to provide additional clarifying data or information, it will be posted at http://www.wisconsinfastforward.com/wff_standard.htm.

Additional Information

Application Form and Instructions:

Access the application instructions, evaluation rubric, and reporting template at:
http://wisconsinfastforward.com/wff_standard.htm

Applicants must describe the following in their grant applications:

- (a) The purpose and need for the grant.
- (b) The projected outcomes sought to be achieved as a result of receiving the grant.
- (c) A summary of the applicant's proposed budget for the construction, renovation, or improvement of a school district facility for the purpose of training students in construction-related and advanced manufacturing fields or for the acquisition of tools and equipment used in construction-related and advanced manufacturing fields, including any software, related materials, and instructional training for instructors and pupils in the operation of that tool or equipment, including the amount and form of the matching funds required under this GPA.
- (d) A justification of the proposed budget under par. (c) that details cost estimates used in compiling the budget.
- (e) A narrative description of the program for which the applicant will construct, renovate, or improve school district facilities for the purpose of training students in construction-related and advanced manufacturing fields; acquire tools and equipment, software, related materials, and instructional training necessary for instructors and pupils to operate tools and equipment in construction-related and advanced manufacturing fields.

(f) Any other information required in the GPA.

Letters of Commitment:

- For each partner, letters of commitment or support must be submitted and be on letterhead.
- Include attestation regarding partnership expectations, the need for employees trained in advanced manufacturing or construction, and any other elements that inform the program.
- Include a description of any match funds, clearly indicating the amount, the date of receipt within the grant project period, and a description of how it supplements the project.

Project Period: The project period for this GPA is from the contract execution date through June 30, 2029.

Grant Amount: Not less than \$5,000, nor more than \$100,000 is available per Grantee. Grant expenditures must be incurred during the project period. All eligible grant expenses will be reimbursed, per individual contract specifications, when expenses are:

- Included in the award application.
- Supported by match contribution.
- Paid and documented by the Grantee.
- Approved by DWD's Office of Skills Development.

Disbursement of grant funding will be made on a rolling basis when the Grantee complies with all conditions of the grant as stipulated in the contract. Reimbursements may be pro-rated or withheld based on the extent to which contract conditions are met.

Match Contribution: An applicant may not be awarded a grant unless the applicant provides matching funds. Match may be in the form of money or the monetary value of software, tools, equipment, or other in-kind contributions that are provided to the Career and Technical Education Program (CTE) during the grant project period. As a condition of receiving a grant under this section, the matching funds must be incurred and provided within the grant period in an amount **equal to or greater than any grant moneys received**.

- Documentation of the types of match funds must be submitted with the application.
- Referendum funds used to fulfill match must be available in the school budget during the project period and directly tied to the CTE program. Additional detail may be requested.

Eligibility: For an application to be considered for funding, the following conditions must be met:

- Applicant is a Wisconsin school district or a consortium consisting of multiple school districts.
- Applicants may apply for no more than one grant for this round of grant funding.
- Applicants must include a plan to secure match contributions that are equal to or greater than any grant moneys received.
- Applicants must comply with eligibility requirements under the GPA and Wis. Stat. § 106.275.

Due Diligence: All applicants are required to complete the Risk Assessment Form and Due Diligence checklist. If any of the statements below apply to an applicant, that applicant may be disqualified and will not be scored:

- Applicant has been in operation less than 24 months.
- Within the last 24 months, the Applicant has been required to provide a Worker Adjustment and Retraining Notification (WARN) notice under 29 U.S.C. § 2101 et seq., or a notice under Wisconsin's Business Closing and Mass Layoff Law, Wis. Stat. § 109.07 (Layoff Notices found here: <https://dwd.wisconsin.gov/dislocatedworker/warn/>).
- Within the last 24 months, Applicant has been found to have violated the Unemployment Compensation laws, Wis. Stat. Ch. 108.
- Within the last 24 months, Applicant has been found to have violated the Worker's Compensation Act, Wis. Stat. Ch. 102.
- Applicant is on the Wisconsin Department of Administration's list of vendors who are not in compliance with Wis. Stat. § 77.66, found here: <https://doa.wi.gov/Documents/DEO/CertList.pdf>.
 - Note: An applicant may demonstrate that they have come into compliance since the last posting date of the list.
- Applicant's status is not registered as a Wisconsin business or is otherwise not in good standing with the Wisconsin Department of Financial Institutions.
- Within the last 24 months, applicant has been found to have violated the Wisconsin Fair Employment Act, Wis. Stat. § 111.31 et seq., or employment regulations under Wis. Stat. Ch. 103.
- Applicant is listed as ineligible on the Department of Administration's Office of Contract Compliance Vendor Directory, found here: <http://vendornet.state.wi.us/vendornet/wocc/wocceli1.xls>
- Applicant is listed as a delinquent taxpayer with the Wisconsin Department of Revenue, at <https://www.revenue.wi.gov/Pages/DelqList/DelqSearch.aspx>.

Organizations are strongly encouraged to verify that there are no unresolved issues in these areas prior to submitting the application or provide a detailed explanation with the application.

Eligible Expenses: Funds awarded under this GPA shall be used to reimburse the costs of the construction, renovation, or improvement of school district facilities for the purpose of training students in construction-related and advanced manufacturing fields or for the acquisition of tools and equipment that are used in construction-related and advanced manufacturing fields, including any software, related materials, and instructional training for instructors and pupils in the operation of that tool or equipment

Ineligible Expenses: WFF funds **may not** be used for costs or purposes outside the scope of Wis. Stat. § 106.275.

Supplement not Supplant: All funding must be new funds and **cannot** replace existing federal, state, or local government funding. Substituting existing funds with state grant funds will result in additional fiscal monitoring and may result in an audit. Violations of permissible expenses may result in suspension of current or future funds under this program, repayment of monies awarded under this grant, and possible civil and/or criminal penalties.

Grant Evaluation Rubric and Scoring: WFF is a competitive grant program. The evaluation committee will evaluate grant applications for compliance with the grant eligibility requirements and specifications cited in this document. Grant proposals will be rated on a 100-point scale, based upon the following point values:

Selection Criteria	Points
Demand-driven, based on labor market data and employer partnerships	20
Leverages partnerships with employers and non-state matching funds	20
Optimizes regional training capacity and the number of skilled workers, as validated by relevant employers	20
Builds on proven programs	20
Demonstrates sustainability	20

Grant proposals will be ranked by high score and awarded based upon ranking and availability of budgeted funds. Grant proposals that score below 50 points will not be eligible for funding. It is strongly recommended that applicants consult the Grant Evaluation Rubric and Scoresheet to address all scoring criteria when writing proposals. The Grant Evaluation Rubric and Scoresheet is available for download at www.wisconsinfastforward.com/wff_standard.htm.

Awards: For this GPA, DWD shall award grants to applicants with the highest numerical scores, except that DWD shall award grants so that not less than one-third of grant moneys awarded in a fiscal biennium are provided to applicants that are either school districts eligible for sparsity aid or consortia that include at least one school district that is so eligible.

Contract: The WFF Technical Education Equipment Grant applications that are funded under this GPA are required to execute a binding contract with DWD before any expenses are incurred for which reimbursement is expected. Expenses incurred prior to contract execution will not be reimbursed.

Reimbursement

- Awards are structured as cost-reimbursement grants, meaning that recipients are expected to incur expenses before receiving any WFF funds. WFF will provide access to an online invoicing system and reimbursement instructions.
- Upon submission of complete invoices with proper documentation and proof of payment, payments will be disbursed via Automated Clearing House (ACH) transactions.
- In compliance with the Office of the State Comptroller rules and regulations, no grant recipient shall expend grant funds until a contract has been fully executed with WFF. Upon contract execution, recipients will be allowed to incur costs. Costs must be incurred between contract execution and up to (and including) June 30, 2029. No expenses incurred after June 30, 2029, will be reimbursed by this program.
- Invoices submitted after 9/30/2029 will not be reimbursed.
- Grantees will forfeit any remaining award unused after the contract expires.

Grant Reporting Requirement: Grant recipients must meet the program reporting

requirements, including submission of project updates to document reimbursement requests, outcome reporting determined by the individual grant contract, two annual reports and a final report in the third year.

The Grantee is responsible for tracking and monitoring enrollment counts, number of instructors trained, number of students trained, number of courses offered, partnering counts, awarded credentials counts, budget, and any other required information related to the advanced manufacturing and construction-related vocational and technical education programs for which the grant supported the purchase of tools and equipment or the construction, renovation, or improvement of school district facilities for the purpose of training students in construction-related and advanced manufacturing fields.

Additionally, the Grantee may be subject to program and fiscal audits by DWD as defined in the contract. Reports should justify quantifiable outcomes and impacts for the Grantee, training participants, employers, and the State of Wisconsin, including progress towards addressing two of the three grant program goals below:

- (1) Increase the count of students able to participate in an existing program.
- (2) Create a new program to meet a demonstrated employer demand, as supported by labor market data and partnerships with employers.
- (3) If no increase in the number of participating students is projected, the Grantee must demonstrate a significant improvement in the skills of the students who are able to participate in the program because existing tools and equipment will be replaced or updated, as validated by support from relevant employers.

Reservation Clauses:

The WFF program reserves the right to:

- Make no award.
- Postpone or cancel this GPA upon notification to all applicants.
- Amend the GPA after its release with appropriate notice to all applicants.
- Request applicants to present supplemental information clarifying their application in writing for transparency. Applicants failing to respond to these requests during the time allotted may be eliminated from funding consideration.
- Give applicants the opportunity to resolve minor or clerical errors.
- Negotiate with selected applicants prior to contract awards.
