Grantee Contract Summaries

FF184RE10001 Wisconsin Department of Corrections

DWD issued a grant of \$400,000.00. The Wisconsin Department of Corrections (DOC) will collaborate with Moraine Park Technical College (MPTC) and Western Technical College (WTC) to provide comprehensive welding and mechanical maintenance training in a mobile lab to incarcerated individuals at various institutions throughout the state of Wisconsin. DOC will provide training to 60 participants annually over the next two years. DOC will also partner with local Workforce Development Boards (WDB) and job service partners to create an institution-based job center to expand inmate training and ensure job search and resume development services are available to inmates who are being released to the community.
