

## Guidance to File Reimbursement Requests

For a reimbursement request *to be approvable*, it must meet these six assumptions:

1. Expenditure and/or Match is allowable under the [Wisconsin Fast Forward grant](#).
2. Expenditure and/or Match is clearly identified in Grantee's application or amendment(s).
3. Grantee has sufficient WFF funds allocated in the expenditure category.
4. Expenditure is made within the timeframe of the grant.
5. Grantee is meeting Match requirements as outlined in their contract.
6. Grantee is providing sufficient documentation of expenditure and/or match, along with proof of payment for expenses greater than \$500.

**A Reimbursement Workbook and Excel Tracking Tool will be submitted with each reimbursement request, to assist with reporting the information outlined below.**

**Program/Curriculum Development:** Costs related to the creation and development of the training curriculum. Curriculum is the content which will be taught in a training program that is funded by Wisconsin Fast Forward. Examples: personnel costs, contractual/consultant costs, and supplies directly related to the creation of the curriculum.

**Instruction:** Costs related to the training process of providing information on how something should be done, operated, or assembled. Training can be provided externally (i.e. through a technical college, university, employment partners) or internally (i.e. an expert in the field/skill within the organization). If training is provided externally, expenses should be included under the Consultant/Contractual budget line.

**Instructional Materials:** Materials directly used or consumed by the trainees during instructional activities and has a useful life of over 1 year. Examples: Drills, lathes, discs, software, etc. Note, this is limited to non-capital expenditures only with an individual item cost under \$5,000.

**Facility (off-site/on-site):** WFF encourages Applicants, when possible, to use their own facilities or those of the educational partner for training at no cost to WFF. However, if the Applicant must lease space to provide training and can verify that this is necessary to the success of the program, WFF grant funds may be used to pay a rental rate based on competitive rates for the area in which the program will operate. It is also allowed that a Project Partner provide a cash match to cover rent or make an in-kind match of training space off-site. Project Partner facilities contributed as in-kind match must be valued at the actual cost to hold the training there and should be prorated for the amount of time being used for purposes directly related to the project.

When Applicants use their own facilities at no cost to WFF, the value of the training space is allowable as an in-kind match. Applicant business facilities must be valued at the actual cost to the business and should be prorated for time used for purposes directly related to the project.

**Administrative Cost:** Costs that exist for the general operation of the program to support activities necessary for the proper and efficient performance of grant duties. Examples: trainee data entry, quarterly reporting, program meetings, financial grant management activities, and office supplies. This does not include curriculum development activities, personnel development, or research activities. WFF grant funds may pay for administrative costs up to 10% of the grant award or costs reimbursed under a grant.
